Sommario/riassunto	The A to Z of Existentialism explains the central claims of existentialist philosophy and the contexts in which it developed into one of the most influential intellectual trends of the 20th century. This is done through a chronology, an introductory essay, a bibliography, and more than 300 cross-referenced dictionary entries offering clear, accessible accounts of the life and thought of major existentialists like Jean-Paul Sartre, Martin Heidegger, Martin Buber, Karl Jaspers, Gabriel Marcel, Simone de Beauvoir, Albert Camus, and Maurice Merleau-Ponty, as well as thinkers influential to its dev

Sommario/riassunto	This book explores the struggle for gains from direct investment between multinationals and developing countries. It discusses which policies work best in influencing the behaviour of MNEs and how developing countries compete with one another for multinational investment. It argues that the tax regimes of different countries rarely deter investors but that nationalisation acts as a powerful disincentive. It also concludes that governments should not be expected to sacrifice the environment to attract multinationals.
