

1. Record Nr.	UNINA9911154851703321
Autore	Choy Ernest
Titolo	Fibromyalgia syndrome / / Ernest Choy
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, 2009
ISBN	0-19-174013-6 0-19-960725-7 1-283-58241-4 9786613894861 0-19-157555-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (88 p.)
Collana	Oxford rheumatology library
Disciplina	616.742
Soggetti	Fibromyalgia Rheumatism
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Preface; Abbreviations; 1 How to diagnose fibromyalgia syndrome; 2 Epidemiology and healthcare burden of fibromyalgia syndrome; 3 Pathophysiology in fibromyalgia syndrome; 4 Assessing fibromyalgia syndrome; 5 Management of fibromyalgia syndrome; 6 Quick practical guides; 7 Case studies; Index; A; B; C; D; E; F; G; H; I; J; K; L; M; N; O; P; Q; R; S; T; U; V; W; Z
Sommario/riassunto	Fibromyalgia is a common condition affecting 2-4% of the population. It is characterised by chronic widespread pain, fatigue, depression and anxiety. Due to the absence of objective diagnostic tests and an overlap with other conditions there is often a significant delay in diagnosis. It is therefore vital that clinicians can recognise the condition and diagnose early to avoid anxiety and frustration for the patient. This concise practical pocketbook helps rheumatologists and general practitioners to diagnose patients and best manage patients with fibromyalgia.
