Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Preface de l'editeur -- Avant-propos -- Introduction -- 1. La politique dans les années 60 -- Première partie APRES LA REVOLUTION TRANQUILLE -- 2. Reflexions sur les violences -- 3. De Trudeau en Bourassa, ou de Bourassa en Trudeau -- 4. Lettre a Pierre Elliott Trudeau -- 5. Une forteresse ou une prison -- 6. Propositions de réforme constitutionnelle -- 7. La venerable centenaire du 1er juillet ou "la vieille dame indigne" -- 8. Du fédéralisme, du neutralisme, de l'indépendantisme et autres branchismes -- 9. Dialogue entre le coeur

et la tete -- 10. Lettre a Rene Levesque -- Deuxieme partie LE
 TOURNANT DU 15 NOVEMBRE 1976 -- 11. Il y a toujours une "derniere
 chance" -- 12. Pourquoi voter pour le Parti quebecois si vous en avez
 envie - et vous avez peut-etre raison ! -- 13. Pourquoi voter pour le
 Parti liberal si vous ne pouvez faire autrement - et ca pourra toujours
 servir ! -- 14. Pourquoi voter pour un des tiers-partis si vous n'aimez
 pas les deux grands - et vous n'avez pas completement tort ! -- 15. Le
 Parti quebecois et les dilemmes du pouvoir -- 16. Le Canada
 "indivisible", le Quebec irrepressible -- 17. Une Communaute
 canadienne a inventer -- 18. Du mode d'emploi du Parti quebecois --
 19. Du bon usage de la crise actuelle -- Troisieme partie
 ACCELERATION OU DECELERATION ? -- 20. L'independance : pourquoi ?
 quoi ? pour qui ? -- 21. L'idee d'autodetermination -- 22. Referendum
 ou "sondage" -- 23. Combien de referendums ? -- 24. Tourner le
 probleme a l'envers pour une solution a l'endroit -- 25. Le projet d'un
 Commonwealth canadien -- 26. Pourquoi il n'y a pas de conclusion --
 ANNEXE : Portraits de Pierre Elliott Trudeau et Rene Levesque.

Edizione	[Second edition.]
Descrizione fisica	1 online resource (xii, 562 pages) : digital, PDF file(s)
Classificazione	NAT038000
Disciplina	630.2/77
Soggetti	Agricultural ecology Agricultural systems

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Machine generated contents note: Preface; Part I. Farming Systems and Their Biological Components: 1. Agricultural systems; 2. Trophic chains; 3. Community concepts; 4. Genetic resources; 5. Development; Part II. Physical and Chemical Environments: 6. Aerial environment; 7. Soil resources; Part III. Production Processes: 8. Nitrogen processes; 9. Water relations; 10. Photosynthesis; 11. Respiration and partitioning; Part IV. Resource Management: 12. Soil management; 13. Strategies and tactics for rainfed agriculture; 14. Water management in irrigated agriculture; 15. Energy and labor; Part V. Farming, Then, Now and in the Future: 16. Evolution of wheat farming systems in southern Australia; 17. Technological change in high-yield agriculture; 18. The future of agriculture; Species list; Conversions and constants useful in crop ecology; Index.
Sommario/riassunto	Food security and environmental conservation are two of the greatest challenges facing the world today. It is predicted that food production must increase by at least 70% before 2050 to support continued population growth, though the size of the world's agricultural area will remain essentially unchanged. This updated and thoroughly revised second edition provides in-depth coverage of the impact of environmental conditions and management on crops, resource requirements for productivity and effects on soil resources. The approach is explanatory and integrative, with a firm basis in environmental physics, soils, physiology and morphology. System concepts are explored in detail throughout the book, giving emphasis to quantitative approaches, management strategies and tactics employed by farmers, and associated environmental issues. Drawing on key examples and highlighting the role of science, technology and economic conditions in determining management strategies, this book is suitable for agriculturalists, ecologists and environmental scientists.
