	Nota di contenuto	Title page -- TABLE OF CONTENTS -- ABSTRACT -- GEORGE WASHINGTON: AMERICA'S FIRST STRATEGIC LEADER -- The Formative Years -- Preparation for Command -- Commander of the Continental Army -- After the War -- Conclusion
	Sommario/riassunto	George Washington is widely recognized as one of the greatest strategic leaders in our nation's history. His ability to lead a rag-tag group of militia against the most powerful nation of his time appears to

be unexplainable. Through further analysis though, one can begin to see a pattern appear that may explain why Washington's personal theory of war was so successful, and hence explain why he became such a great strategic leader. George Washington was not a particularly successful tactical leader, and his experiences in leading troops culminated prior to the Revolutionary War at the Regimental level. He went on to lead a productive life as a statesman in the Virginia legislature until the war with Britain erupted and he was cast into the role as America's first Commander in Chief. His ability to comprehend the conflict for what it was, as well as his ability to understand the will of his fellow countrymen allowed him to craft a wartime strategy for victory against the most powerful nation on earth at the time. He kept the will of the people, the tactics of the army and the desires of the state in balance to devise a strategy that would allow him to go down in history as America's first strategic leader.
