Nota di contenuto	Introduction : the changing place of prejudice : a migration underground -- "Those people all look alike" : the myth of the other -- "They must be guilty of something" : myths of criminalization -- "Feminists are man-haters" : backlash myth-making -- "Gays flaunt their sexuality" : the myth of hypersexuality -- "I'm not a racist, I'm colorblind" : the myth of neutrality -- "Affirmative action is reverse racism" : the myth of merit.
Sommario/riassunto	While overt prejudice is now much less prevalent than in decades past, subtle prejudice - prejudice that is inconspicuous, indirect, and often unconscious - continues to pervade our society. Laws do not protect against subtle prejudice and, because of its covert nature, it is difficult to observe and frequently goes undetected by both perpetrator and victim. Benign Bigotry uses a fresh format to examine subtle prejudice by addressing six commonly held cultural myths based on assumptions that appear harmless but actually foster discrimination: 'those people all look alike'; 'they must be guilty of something'; 'feminists are man-haters'; 'gays flaunt their sexuality'; 'I'm not a racist, I'm color-blind' and 'affirmative action is reverse racism'. Kristin J. Anderson skillfully relates each of these myths to real world events, emphasizes how errors in individual thinking can affect society at large, and suggests strategies for reducing prejudice in daily life.
