Sommario/riassunto	Steven Nadler presents the first English translation of a seminal work in the history of early modern philosophy. Geraud de Cordemoy's Six

Discourses on the Distinction Between the Soul and the Body (originally published in French in 1666) offers an account of the mind and the body in a human being. Cordemoy is an unorthodox Cartesian who opts for an atomist conception of body and matter. In this groundbreaking treatise, he also presents one of the earliest arguments for an occasionalist account of causation, with God serving as the true cause of bodily motions in the world and of ideas in the

#### Sommario/riassunto

The primary aim of this volume is to provide researchers and engineers from both academic and industry with up-to-date coverage of new results in the field of robotic welding, intelligent systems and automation. The book is mainly based on papers selected from the 2022 International Conference on Robotic Welding, Intelligence and Automation (RWIA'2022) in Shanghai and Lanzhou, China. The articles show that the intelligentized welding manufacturing (IWM) is becoming an inevitable trend with the intelligentized robotic welding as the key technology. The volume is divided into four logical parts: Intelligent Techniques for Robotic Welding, Sensing of Arc Welding Processing, Modeling and Intelligent Control of Welding Processing, as well as Intelligent Control and its Applications in Engineering.
