| Sommario/riassunto      | This new in-depth study of Hasegawa Nyozeke (1895–1969) examines his life and intellectual contributions as a pre-eminent liberal reformer through his role as a journalist and social critic, particularly in pre-war and wartime Japan.                                                                                                                                                        |
