Sommario/riassunto	The go to resource for how to use Excel dashboards and reports to better conceptualize data Many Excel books do an adequate job of discussing the individual functions and tools that can be used to create an "Excel Report." What they don't offer is the most effective ways to present and report data. Offering a comprehensive review of a wide array of technical and analytical concepts, Excel Reports and Dashboards helps Excel users go from reporting data with simple tables full of dull numbers, to presenting key information through the use of high-impact, meaningful reports and da

	Sommario/riassunto	Isaeus (c. 420-350 BCE) composed speeches for others. He shares with Lysias pure Attic and lucidity of style, but his more aggressive and flexible presentation undoubtedly influenced Demosthenes. Of at least fifty attributed orations, there survive eleven on legacy cases and a large fragment dealing with a claim of citizenship.

Sommario/riassunto	Les grammaires du français recèlent tant de renseignements que l’on pourrait être tenté de croire que tout a été dit aujourd’hui des complexités de la langue. Or, fait étonnant révélé par trente années d’ études générativistes, certaines constructions restent encore presque entièrement ignorées, voire absentes des grammaires actuelles. Constructions méconnues du français rassemble, pour la première fois, des faits de langage que les recherches en linguistique moderne ont permis de caractériser, de décrire et de découvrir. L’ouvrage, divisé en dix chapitres, présente de façon singulière dix de ces constructions du français, parmi lesquelles la négation de phrase, l’inversion du sujet et la syntaxe de « en ». Pour chaque construction présentée, les auteurs font état de ses propriétés, de son fonctionnement, des restrictions auxquelles elle est soumise et, le cas échéant, des liens qu’elle entretient avec d’autres constructions en apparence non reliées. Cet ouvrage est le parfait complément pour tout étudiant ou chercheur s’ intéressant à la linguistique et à la traduction ou souhaitant parfaire sa compréhension de la langue et de la grammaire.
