Sommario/riassunto

When Beijing hosted the 2008 Summer Olympics, China symbolically asserted its role as an emerging world power -- a position it is not likely to relinquish anytime soon. China's growing economy, military reforms, and staggering productivity have contributed to its ascendancy as a major player in international affairs. Western scholars have attempted to explain Chinese foreign policy using historical or theoretical evidence, but until this volume, few studies from a Chinese perspective have been published in English. In *Challenges to Chinese Foreign Policy: Diplomacy, Globalization, and the Next*
