Sommario/riassunto	Art is always ambiguous. When it involves the female body it can also be erotic. Erotic Ambiguities is a study of how contemporary women artists have reconceptualised the figure of the female nude. Helen McDonald shows how, over the past thirty years, artists have employed the idea of ambiguity to dismantle the exclusive, classical ideal enshrined in the figure of the nude, and how they have broadened the scope of the ideal to include differences of race, ethnicity, sexuality and disability as well as gender. McDonald discusses the work of a wide range of women artists, including B

Sommario/riassunto	In this first social and cultural history of Japan's construction of Manchuria, Louise Young offers an incisive examination of the nature of Japanese imperialism. Focusing on the domestic impact of Japan's activities in Northeast China between 1931 and 1945, Young considers "metropolitan effects" of empire building: how people at home

imagined and experienced the empire they called Manchukuo. Contrary to the conventional assumption that a few army officers and bureaucrats were responsible for Japan's overseas expansion, Young finds that a variety of organizations helped to mobilize popular support for Manchukuo-the mass media, the academy, chambers of commerce, women's organizations, youth groups, and agricultural cooperatives-leading to broad-based support among diverse groups of Japanese. As the empire was being built in China, Young shows, an imagined Manchukuo was emerging at home, constructed of visions of a defensive lifeline, a developing economy, and a settler's paradise.
