Sommario/riassunto	<p>Women and Poverty analyzes the social and structural factors that contribute to, and legitimize, class inequity and women's poverty. In doing so, the book provides a unique documentation of women's experiences of poverty and classism at the individual and interpersonal levels. Provides readers with a critical analysis of the social and structural factors that contribute to women's povertyUses a</p>

multidisciplinary approach to bring together new research and theory  
from social psychology, policy studies, and critical and feminist
