

1. Record Nr.	UNINA990006718540403321
Autore	Hildebrand, David K.
Titolo	Analysis of Ordinal Data / David K.Hildebrand, James D. Laing, Howard Rosenthal.-
Pubbl/distr/stampa	Beverly Hills : Sage Publ., 1977
Descrizione fisica	22 cm, pp. 79
Collana	Quantitative applications in the social sciences ; 8
Locazione	FSPBC SE
Collocazione	S VI E 116 (8) 10810 SAG
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNIPARTHENOPE000033211
Autore	Johnson, Jane
Titolo	La valutazione posturale : guida illustrata in 79 step / Jane Johnson
Pubbl/distr/stampa	Perugia, : Calzetti & Mariucci Editori, 2019
Titolo uniforme	La valutazione posturale : guida illustrata in 79 step
ISBN	978-88-6028-605-5
Descrizione fisica	167 p. : ill. ; 24 cm
Disciplina	613.78
Collocazione	613-V/1
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
3. Record Nr.	UNINA9910785452203321
Autore	Mayhew Robert
Titolo	The female in Aristotle's biology [[electronic resource]] : reason or rationalization // Robert Mayhew
Pubbl/distr/stampa	Chicago, : University of Chicago Press, 2004
ISBN	1-282-93284-5 9786612932847 0-226-51202-9
Descrizione fisica	1 online resource (149 p.)
Disciplina	305.4
Soggetti	Misogyny Women
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 119-124) and indexes.
Nota di contenuto	Front matter -- Contents -- Preface -- Abbreviations -- One. Aristotle

and "Ideology" -- Two. Entomology -- Three. Embryology -- Four. Eunuchs and Women -- Five. Anatomy -- Six. The Softer and Less Spirited Sex -- Seven. Aristotle on Females: An Assessment of the Biology -- References -- Index Locorum -- Index of Names -- General Index

Sommario/riassunto

While Aristotle's writings on biology are considered to be among his best, the comments he makes about females in these works are widely regarded as the nadir of his philosophical oeuvre. Among many claims, Aristotle is said to have declared that females contribute nothing substantial to generation; that they have fewer teeth than males; that they are less spirited than males; and that women are analogous to eunuchs. In *The Female in Aristotle's Biology*, Robert Mayhew aims not to defend Aristotle's ideas about females but to defend Aristotle against the common charge that his writings on female species were motivated by ideological bias. Mayhew points out that the tools of modern science and scientific experimentation were not available to the Greeks during Aristotle's time and that, consequently, Aristotle had relied not only on empirical observations when writing about living organisms but also on a fair amount of speculation. Further, he argues that Aristotle's remarks about females in his biological writings did not tend to promote the inferior status of ancient Greek women. Written with passion and precision, *The Female in Aristotle's Biology* will be of enormous value to students of philosophy, the history of science, and classical literature.
