Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 307-320) and index.
Nota di contenuto	Defining evidence-based practice -- Asking the right questions -- Locating the best available research / Lauren A. Maggio -- Reading and interpreting the research : research designs -- Reading and interpreting the research : numbers and measures -- Appraising research reports -- Translating research into practice -- Integrating the patient and the clinician with the research -- Incorporating evaluation and ethics -- Disseminating, teaching, and implementing evidence-based practices.
Sommario/riassunto	All mental health and addiction practitioners want to provide their patients with the most effective treatment available. But with this brings the challenge of wading through an overwhelming amount of complex scientific research. Here, a trio of distinguished scientist-practitioners provide a concise, practical, user-friendly guide designed to assist mental health and addiction practitioners in accessing, interpreting, and applying evidence-based practices (EBP). The Clinician's Guide is a manual that instructs on how to ask the right questions, how to access and appraise the best available re
