Sommario/riassunto

"This collection challenges misconceptions that rural Canada is a bastion of intolerance. While examining the extent and nature of contemporary cultural and religious discrimination in rural Canadian communities, the editors and contributors explore the many efforts by rural citizens, community groups, and municipalities to counter intolerance, build inclusive communities, and become better neighbours. Throughout, scholars and community leaders focus on building new understandings, language, and ways of thinking about diversity and inclusion that will resonate with rural people. Scholars of rural studies will find this book useful as will rural community leaders and community organizers."-- Provided by publisher.
