Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contributors; Preface; I Ganoderma, Organism and Systematics; II Ganoderma, Diseases of Perennial Crops; III Disease Control and Management Strategies; IV Molecular Variability in Ganoderma; V Development of Diagnostic Tests for Ganoderma; Index
Sommario/riassunto	Ganoderma is a fungal pathogen that causes diseases on a variety of perennial crops including oil, palm, tea, rubber and coconut. Chapters in the book are based on presentations given at regional research workshops, held in Egham, UK in August 1998, and Serdang, Malaysia in October 1998.
