Sommario/riassunto

In A History of Myanmar since Ancient Times, Michael Aung-Thwin and Maitrii Aung-Thwin take us from the sacred stupas of the plains of Pagan to grand, colonial-era British mansions, revealing the storied past and rich culture of this country. The book traces the traditions and transformations of Myanmar's communities over nearly three millennia, from the relics of its Neolithic civilization to the splendors of its pre-colonial kingdoms, its encounters with British colonialism and the struggles for the republic that followed the end of World War II. <DIV

3. Record Nr.	UNINA9910576884403321
Autore	Hasanuzzaman Mirza
Titolo	Plant Oxidative Stress: Biology, Physiology and Mitigation
Pubbl/distr/stampa	Basel, : MDPI - Multidisciplinary Digital Publishing Institute, 2022
Descrizione fisica	1 online resource (238 p.)
Soggetti	Biology, life sciences Botany & plant sciences Research & information: general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This Special Issue, "Plant Oxidative Stress: Biology, Physiology, and Mitigation", published 11 original research works and 1 review article that discussed the various aspects of ROS Biology, metabolism, and the physiological mechanisms and approaches to mitigating oxidative stress. These types of research studies show further directions for the development of crop plants that are tolerant to abiotic stress in the era of climate change.
