

1. Record Nr.	UNISA990000218760203316
Autore	Colloquium on spin glasses. optimization and neural networks : 1986
Titolo	Heidelberg colloquium on glassy dynamics : proceedings of a colloquium on spin glass, optimization and neural networks : held at the University of Heidelberg June 9-13, 1986 / edited by L. van Hemmen ... [et al.]
Pubbl/distr/stampa	Berlin [etc.] : Springer-Verlag, copyr. 1987
ISBN	3.540-17777-9
Descrizione fisica	576 p. : ill. ; 25 cm
Collana	Lecture notes in physics ; 275
Disciplina	539725
Collocazione	530 LNP (275)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910163108403321
Autore	Cercas Javier <1962->
Titolo	El monarca de las sombras / / Javier Cercas
Pubbl/distr/stampa	LITERATURA RANDOM HOUSE
ISBN	84-397-3261-9
Disciplina	862/.64
Soggetti	Spain History Civil War, 1936-1939 Fiction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
3. Record Nr.	UNINA9910132158703321
Titolo	Male lower urinary tract symptoms and benign prostatic hyperplasia / / edited by Steven A. Kaplan, Kevin T. McVary
Pubbl/distr/stampa	Chichester, West Sussex, [England] : , : John Wiley & Sons, , 2014 ©2014
ISBN	1-118-43788-8 1-118-43797-7
Descrizione fisica	1 online resource (227 p.)
Disciplina	616.6/5
Soggetti	Lower Urinary Tract Symptoms
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Male Lower Urinary Tract Symptoms and Benign Prostatic Hyperplasia; Copyright; Contents; Contributors; Chapter 1 Etiology and Pathogenesis; Introduction; What is BPH/LUTS? The biology; Regulation of the normal prostate; Androgen regulation of the prostate; Estrogens, progesterone, prostatic regulation, and BPH; Growth factors and chemokines in BPH/LUTS; Inflammatory changes associated with BPH;

Prostate-associated Gene 4 as a stress modulator within the prostate; The need for biomarkers of BPH; Conclusions; Bibliography
Chapter 2 Lower Urinary Tract Symptoms and Benign Prostatic Hyperplasia: Epidemiology, Correlates, and Risk Factors
Introduction; Descriptive epidemiology, risk factors, and correlates; Metabolic syndrome, obesity, and LUTS; BPH/LUTS and sexual function in men; Measurement and classification of LUTS symptoms in epidemiological research: new concepts and methods; Summary and conclusion; Bibliography; Chapter 3 Clinical Assessment and Diagnosis of Lower Urinary Tract Dysfunction: United States; Introduction; Initial evaluation of men presenting with LUTS; Medical history
Characterization of LUTS and quality of life
Physical examination; Initial diagnostic tests; Differential diagnosis after the initial evaluation; Evaluation of the persistent or complicated LUTS in the male patient with LUTD; Diagnostic tests for patients with complicated LUTD; Additional selected diagnostic tests for complex BPH patients; Bibliography; Chapter 4 Clinical Assessment and Diagnosis of Lower Urinary Tract Symptoms/Benign Prostatic Hyperplasia: Europe; Aim of the assessment; Investigational tests; Medical history; Symptom score; Physical examination and digital rectal examination
Frequency-volume charts and bladder diaries
Urinalysis (dipstick); Serum creatinine; PSA; Postvoid residual urine; Imaging of urinary tract; Endoscopy; Uroflowmetry; Pressure-flow studies; What happens in real life in Europe?; Bibliography; Chapter 5 Clinical Assessment and Diagnosis of Lower Urinary Tract Symptoms/Benign Prostatic Hyperplasia: Primary Care; Why should primary care be concerned?; Definitions; What are LUTS?; Normal function of the prostate; Abnormal function of the prostate; Normal function of the bladder; Abnormal function of the bladder
History, physical, and laboratory evaluation
Other modalities in assessment; Reasons for referral; Assessing bother; Summary; Chapter 6 Watchful Waiting; Introduction; Symptom progression; Acute urinary retention; Prostate size and growth; Bladder function changes in men over time; Renal disease and benign prostatic hyperplasia; Associations in common between chronic kidney disease and benign prostatic hyperplasia; Inflammation; Diabetes; Hypertension; Metabolic syndrome; Autonomic nervous system; Monitoring renal function in men with benign prostatic hyperplasia; End-stage renal disease
Conclusion

Sommario/riassunto

Male Lower Urinary Tract Symptoms and Benign Prostatic Hyperplasia provides urologists of all levels with a practical, highly clinical guide to the variety of different symptoms and problems concerning the male lower urinary tract, including benign prostatic hyperplasia, one of the conditions that urologists most regularly encounter. Evidence-based throughout and written by the world's leading experts in the topic, it comprehensively reviews the very latest in diagnostics and imaging, patient phenotyping, genetic studies, medical and surgical therapies, and lifestyle management in order to provide the best possible care for patients with LUTS.
