| Nota di contenuto | <p>Session 1: Adaptive, Adaptable, Intelligence User -- Interfaces -- Consumption of Profile Information from Heterogeneous Sources to Leverage Human-Computer Interaction -- Developing Mixed Initiative Educational Web Interfaces for English Education: A Contextual Approach -- Design Choices and Museum Experience: A Design-Based Study of a Mobile Museum App -- Design and Deployment of Everyday UbiComp Solutions at the Hotel: An Empirical Study of Intrinsic Practice Transformation -- Session 2: HCI Design - Methods, Tools and Perspectives -- Bringing the Web Closer: Stereoscopic 3D Web Conversion -- User Experience Degree and Time Restrictions as Financial Constraints in Heuristic Evaluation -- Model-Driven Development of Vocal User Interfaces -- Personalized Interactive Learning Solutions Support – IGUAL -- Closing the Gap between the Motivation of Users and the Design Requirements for Social Sites -- Session 3: HCI Evaluation Methods, Tools and Perspectives -- Formative Evaluation for Complex Interactive Systems -- Setting Usability iTV Heuristics in Open-HEREDEUX -- A Study about the Usability Evaluation of Social Systems from Messages in Natural Language -- A Quality Model for Human-Computer Interaction Evaluation in Ubiquitous Systems -- Session 4: HCI Impacts on Society -- Tablet Use Patterns and Drivers of User Satisfaction: A Gender Approach -- Studying the Relationships between the Management of Personal Data Privacy and User Interface -- HCI with Chocolate: Introducing HCI Concepts to Brazilian Girls in Elementary School -- Borrowing a Virtual Rehabilitation Tool for the Physical Activation and Cognitive Stimulation of Elders -- Session 5: HCI Theories and Theoretical Approaches -- How Do You Understand Twitter?: Analyzing Mental Models, Understanding and Learning about Complex Interactive Systems -- Motivation to Self-report: Capturing User Experiences in Field Studies -- Crowd-Computer Interaction, A Topic in Need of a Model -- Effectiveness Measurement Framework for Field-Based Experiments Focused on Android Devices -- Session 6: Interaction, Visualization and Information, Processing -- Evaluation of a Driving Simulator with a Visual and Auditory Interface -- Using Map Representations to Visualize, Explore and Understand Large Collections of Dynamically Categorized Documents -- Augmenting Decision Tree Models Using Self-Organizing Maps.</p> |
| Sommario/riassunto | <p>This book constitutes the refereed proceedings of the 6th bi-annual Latin American Conference on Human-Computer Interaction, CLIHC 2013, held in Guanacaste, Costa Rica, in December 2013. The 11 full papers and 14 short papers were carefully reviewed and selected from 32 submissions. The papers address all current topics in HCI such as: cultural issues, assistive technologies, usability, accessibility, multimodal inter-faces, design issues, HCI education, and visualization and evaluation techniques, among others.</p> |

| Nota di contenuto | Contents at a Glance; Contents; About the Author; About the Technical Reviewers; Introduction; Chapter 1: Using a Java Client with MongoDB; Setting Up the Environment; Creating a Maven Project; Creating a BSON Document; Using a Model to Create a BSON Document; Getting Data from MongoDB; Updating Data in MongoDB; Deleting Data in MongoDB; Summary; Chapter 2: Using the Mongo Shell; Getting Started; Setting Up the Environment; Starting the Mongo Shell; Running a Command or Method in Mongo Shell; Using Databases; Getting Databases Information; Creating a Database Instance Dropping a Database Using Collections; Creating a Collection; Dropping a Collection; Using Documents; Adding a Document; Adding a Batch of Documents ; Saving a Document ; Updating a Document ; Updating Multiple Documents ; Finding One Document; Finding All Documents; Finding Selected Fields; Using the Cursor ; Finding and Modifying a Document ; Removing a Document; Summary; Chapter 3: Using MongoDB with PHP; Getting Started; Overview of the PHP MongoDB Database Driver; Setting Up the Environment; Installing PHP; Installing PHP Driver for MongoDB; Creating a Connection Getting Database Info Using Collections; Getting a Collection; |

Dropping a Collection; Using Documents; Adding a Document; Adding Multiple Documents; Adding a Batch of Documents; Finding a Single Document; Finding All Documents; Finding a Subset of Fields and Documents; Updating a Document; Updating Multiple Documents; Saving a Document; Removing a Document; Summary; Chapter 4: Using MongoDB with Ruby; Getting Started; Overview of the Ruby Driver for MongoDB; Setting Up the Environment; Installing Ruby; Installing DevKit; Installing Ruby Driver for MongoDB
Using a Collection Creating a Connection with MongoDB; Connecting to a Database; Creating a Collection; Using Documents; Adding a Document; Adding Multiple Documents; Finding a Single Document; Finding Multiple Documents; Updating Documents; Deleting Documents; Performing Bulk Operations; Summary; Chapter 5: Using MongoDB with Node.js; Getting Started; Overview of Node.js Driver for MongoDB; Setting Up the Environment; Installing MongoDB Server; Installing Node.js; Installing the Node.js Driver for MongoDB; Using a Connection; Creating a MongoDB Connection
Using the Database Using a Collection; Using Documents ; Adding a Single Document; Adding Multiple Documents; Finding a Single Document; Finding All Documents; Finding a Subset of Documents; Using the Cursor; Finding and Modifying a Single Document; Finding and Removing a Single Document; Replacing a Single Document; Updating a Single Document; Updating Multiple Documents; Removing a Single Document; Removing Multiple Documents; Performing Bulk Write Operations; Summary; Chapter 6: Migrating an Apache Cassandra Table to MongoDB; Setting Up the Environment
Creating a Maven Project in Eclipse

Sommario/riassunto

Pro MongoDB Development discusses all aspects of using MongoDB in web applications. Java, PHP, Ruby, JavaScript are the most commonly used programming/scripting languages and the book discusses accessing MongoDB database with these languages. A unique book focused on development with MongoDB using Java as well as other programming languages and techniques. Deepak Vohra is a certified Java programmer/developer who has experience in big data and NoSQL programming. MongoDB along with Hadoop and Java are some of today's most important big data and cloud computing technologies.
