Sommario/riassunto

This volume of the publication of the excavations of the Neolithic tell of Platia Magoula Zarkou in Thessaly/Greece presents its continuous settlement sequence of the 6th millennium BC. Cultural change of this period is analysed based on its stratigraphy and constructions, the radiocarbon data, the tools, the ritual objects (including the house model) as well as the ornaments. Geological and geophysical investigations of the surroundings put the tell in its natural environment.

Dieser Band der Grabungspublikation des neolithischen Tells von Platia Magoula Zarkou in Thessalien/Griechenland präsentiert seine kontinuierliche, das 6. Jt. v. Chr. umfassende Siedlungsabfolge. Der kulturelle Wandel dieser Periode wird anhand der Stratigraphie und Bebauung, der Radiokarbonaten, der Geräte, der Kultobjekte (inkl. des Hausmodells), und des Schmucks analysiert. Geologische Untersuchungen und geophysikalische Untersuchungen des Umlandes stellen den Tell in sein natürliches Umfeld.
