| 1. Record Nr.           | UNISA990001166760203316   |
| Titolo                  | Joan Miro' : le metamorfosi della forma / [a cura di Jean-Louis Prat]   |
| Pubbl/distr/stampa      | Firenze [etc.] : ArtificioSkira, 1999   |
| ISBN                    | 88-8118-667-5   |
| Descrizione fisica      | 186 p. : ill. ; 30 cm   |
| Disciplina              | 759.6   |
| Soggetti                | Miro', Joan Esposizioni Firenze 1999-2000   |
| Collocazione            | XII.2.C. 938(VII P 565)   |
| Lingua di pubblicazione | Italiano  |
| Formato                 | Materiale a stampa  |
| Livello bibliografico   | Monografia  |
| 2. Record Nr.           | UNINA9910476807803321   |
| Autore                  | Sotskov Yuri N.   |
| Titolo                  | Mathematics of Economics and Business // Yuri N. Sotskov, Frank Werner  |
| Pubbl/distr/stampa      | London : , : Taylor & Francis, , 2006   |
| Descrizione fisica      | 1 online resource (xvii, 516 pages)   |
| Disciplina              | 330.0151  |
| Soggetti                | Economics, Mathematical   |
| Lingua di pubblicazione | Inglese   |
| Formato                 | Materiale a stampa  |
| Livello bibliografico   | Monografia  |
| Nota di contenuto       | Introduction. Sequences. Series and Finance Relations. Mappings and Functions. Differentiation. Integration. Vectors. Matrices and Determinants. Linear Equations and Inequalities. Linear Programming. Eigenvalue Problems and Quadratic Forms. Functions of Several Variables. Differential and Difference Equations. |
| Sommario/riassunto      | For all students who wish to understand current economic and business   |

literature, knowledge of mathematical methods has become a prerequisite. Clear and concise, with precise definitions and theorems, Werner and Sotkov cover all the major topics required to gain a firm grounding in this subject including sequences, series, applications in finance, functions, differentiations, differentials and difference equations, optimizations with and without constraints, integrations and much more. Containing exercises and worked examples, precise definitions and theorems as well as economic applications, this book provides the reader with a comprehensive understanding of the mathematical models and tools used in both economics and business.
