| Sommario/riassunto      | In the nineteenth century Adam Smith and others gradually invented a 'tradition' of free trade. This was a towering achievement and has proved to be influential to this day. This book examines this construction of the free trade tradition. Showing how historical contruction is a vital component in the writing of doctrinal history, Lars Magnusson argues that it is important for historians of economic thought to distance themselves from the practice of writing history backwards.
