Nota di contenuto	Deep Vision: A Robust Dominant Colour Extraction Framework for T-shirts based on Semantic Segmentation -- Wheel Shaped Defected Ground Structure Microstrip Patch Antenna with High Gain and Bandwidth for Breast Tumor Detection -- IOT based Automated Drip Irrigation and Plant Health Management System -- An Integrated Approach for Pregnancy Detection using Canny Edge Detection and Convolutional Neural Network -- Ontology based Profiling by Hierarchical Cluster Analysis for Forecasting on Patterns of Significant Events.
Sommario/riassunto	This book contains high quality research papers accepted and presented at the International Conference on Intelligent Computing, Communication and Information Security (ICICCIS 2022), organized by Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), Jaipur, India during 25-26, November 2022. It presents the solutions of issues and challenges in intelligent computing, communication and information security domains. This book provides a background to problem domains, considering the progress so far, assessing the potential of such approaches, and exploring possible future directions as a single readily accessible source.
