	Note generali	Description based upon print version of record.

Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Histories of Tibetan medical modernities -- pt. 2. Producing science, truth and medical moralities -- pt. 3. Therapeutic rituals, situated choices -- pt. 4. Research in translation.
Sommario/riassunto	There is a growing interest in studies that document the relationship between science and medicine - as ideas, practices, technologies and outcomes - across cultural, national, geographic terrain. Tibetan medicine is not only known as a scholarly medical tradition among other Asian medical systems, with many centuries of technological, clinical, and pharmacological innovation; it also survives today as a complex medical resource across many Asian nations - from India and Bhutan to Mongolia, Tibet (TAR) and China, Buryatia - as well as in Western Europe and the Americas. The contributions to
