

1. Record Nr.	UNISA990001357000203316
Titolo	I poeti minori dell'Ottocento / a cura di Ettore Janni
Pubbl/distr/stampa	Milano : Rizzoli, 1955-1958
Descrizione fisica	4 volumi ; 16 cm
Collana	Biblioteca universale Rizzoli ; 819 ... 1351
Disciplina	851
Soggetti	Poesia italiana -- Sec. 19.-20. -- Antologie
Collocazione	VI.3.A. 33/ (Varie Coll. 29/)
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
2. Record Nr.	UNINA9910993939803321
Autore	Knoke David
Titolo	Network Collective Action : Agent-Based Models of Pandemics, Riots, Social Movements, Insurrections and Insurgencies / / by David Knoke
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025
ISBN	9783031861994 303186199X
Edizione	[1st ed. 2025.]
Descrizione fisica	1 online resource (XII, 107 p. 17 illus., 16 illus. in color.)
Collana	Lecture Notes in Social Networks, , 2190-5436
Disciplina	302.3
Soggetti	Social sciences - Network analysis Social sciences - Data processing Sociology Political science Artificial intelligence - Data processing System theory Network Research Computer Application in Social and Behavioral Sciences Political Science Data Science Complex Systems

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1. Theories of Collective Action -- Chapter 2. Agent-Based Models of Collective Action -- Chapter 3. Contagious Social Networks -- Chapter 4. Social Movement Networks -- Chapter 5. Insurgent Networks -- Chapter 6. Economic Networks and Global Warming -- Chapter 7. Looking Forward.
Sommario/riassunto	Collective action asks a fundamental question in social science: How do sets of actors choose courses of action and work together to achieve desired outcomes, often in opposition to other coalitions? Psychological and economic rationality explanations are incomplete in emphasizing the mental decision processes of individuals. Collective action must be understood at the level analysis of interpersonal and interorganizational relations. Social network theories and methods provide optimal frameworks for explaining collective action in a variety of settings. This book reviews theories and empirical research on collective action in several substantive areas, demonstrates how agent-based models can analyze collective action networks (pandemics, riots, social movements, insurrections, insurgencies), and concludes with speculations about future research directions.
