"Since 1988 our faculty, together with the European Association for Architectural Education (EAAE) and later the International Seminar on Urban Form (ISUF), has organized an international conference in every Olympic year." |
| Sommario/riassunto | Urban areas have been caught up in a turbulent process of |

transformation over the past 50 years and changes have been rapid, with issues such as mobility, nature, water management, energy use and public space featuring prominently. In each Olympic year since 1988, the Faculty of Architecture at Delft University of Technology has held an international conference focusing on the connection between research and design, exploring the field of tension between science, technology and art. This book presents the proceedings of the latest in this series of conferences: New Urban Configurations, held in
