

1. Record Nr.	UNISA990001865020203316
Autore	RUOCCO, Domenico
Titolo	Memoria illustrativa della carta della utilizzazione del suolo della Campania : fogli 14,15,16,17 e 19 della carta della utilizzazione del suolo d'Italia / Domenico Ruocco ; con una introd. di Carmelo Colamonico
Pubbl/distr/stampa	Roma : Consiglio Nazionale delle ricerche, 1970
Descrizione fisica	182 p. : ill. ; 25 cm
Disciplina	330.94572
Soggetti	Campania Economia 1960-1966
Collocazione	III.1. 532a(I L 210) III.1. 532(I B COLL. 23/9)
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910511404303321
Autore	Rossel Sander
Titolo	Continuous integration, delivery, and deployment : reliable and faster software releases with automating builds, tests, and deployment / / Sander Rossel
Pubbl/distr/stampa	Birmingham, England ; ; Mumbai, [Maharashtra] : , : Packt, , 2017 ©2017
ISBN	1-78728-418-2
Edizione	[1st edition]
Descrizione fisica	1 online resource (1 volume) : illustrations
Disciplina	005
Soggetti	Computer software - Reliability Computer software - Management Computer software - Testing Computer software - Quality control Software maintenance Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	Getting started with the processes and the tools to continuously deliver high-quality software About This Book Incorporate popular development practices to prevent messy code Automate your build, integration, release, and deployment processes with Jenkins, Git, and Gulp - and learn how continuous integration (CI) can save you time and money Gain an end-to-end overview of Continuous Integration using different languages (JavaScript and C#) and tools (Gulp and Jenkins) Who This Book Is For This book is for developers who want to understand and implement Continuous Integration and Delivery in their daily work. A basic knowledge of at least JavaScript and HTML/CSS is required. Knowing C# and SQL will come in handy. Most programmers who have programmed in a (compiled) C-like language will be able to follow along. What You Will Learn Get to know all the aspects of Continuous Integration, Deployment, and Delivery Find out how Git can be used in a CI environment Set up browser tests using Karma and

Selenium and unit tests using Jasmine Use Node.js, npm, and Gulp to automate tasks such as linting, testing, and minification Explore different Jenkins jobs to integrate with Node.js and C# projects Perform Continuous Delivery and Deployment using Jenkins Test and deliver a web API In Detail The challenge faced by many teams while implementing Continuous Deployment is that it requires the use of many tools and processes that all work together. Learning and implementing all these tools (correctly) takes a lot of time and effort, leading people to wonder whether it's really worth it. This book sets up a project to show you the different steps, processes, and tools in Continuous Deployment and the actual problems they solve. We start by introducing Continuous Integration (CI), deployment, and delivery as well as providing an overview of the tools used in CI. You'll then create a web app and see how Git can be used in a CI environment. Moving on, you'll explore unit testing using Jasmine and browser testing using Karma and Selenium for your app. You'll also find out how to automate tasks using Gulp and Jenkins. Next, you'll get acquainted with database integration for different platforms, such as MongoDB and PostgreSQL. Finally, you'll set up different Jenkins jobs to integrate with Node.js and C# projects, and Jenkins pipelines to make branching easier. By the end of the book, you'll have implemented Continuous Delivery and deployment from scratch. Style and a...

3. Record Nr.	UNINA9910788560603321
Autore	Gadotti Alhena
Titolo	"Gilgamesh, Enkidu and the Netherworld" and the Sumerian Gilgamesh cycle // Alhena Gadotti
Pubbl/distr/stampa	Boston ; ; Berlin : , : De Gruyter, , [2014] ©2014
ISBN	1-61451-854-8 1-61451-545-X
Descrizione fisica	1 online resource (448 p.)
Collana	Untersuchungen zur Assyriologie und Vorderasiatischen Archäologie, , 0502-7012 ; ; Band 10
Disciplina	899/.95
Soggetti	Epic poetry, Assyro-Babylonian - History and criticism Epic poetry, Sumerian - History and criticism
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Plates run from page 359-430. Revised version of doctoral dissertation submitted to the Department of Near Eastern Studies, The Johns Hopkins University, Sept. 2005.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	On transliteration and conventions -- 1. Introduction -- 2. The prologue of "Gilgames, Enkidu and the Netherworld" -- 3. The halub-tree -- 4. Narrative and poetic structure -- 5. Enkidu Redivivus -- 6. The Sumerian Gilgames cycle -- 7. Enkidu's return and the catalogue of ghosts : GEN II. 255-end -- 8. The manuscripts -- The edition -- Translation -- Eclectic text -- Textual matrix -- Commentary -- Appendix.
Sommario/riassunto	Alhena Gadotti offers a much needed new edition of the Sumerian composition Gilgamesh, Enkidu, and the Netherworld, last published by Aaron Shaffer in his 1963 doctoral dissertation. Since then, several new manuscripts have come to light, prompting not only a new edition of the text, but also a re-examination of the composition. In this book, Gadotti argues that Gilgamesh, Enkidu, and the Netherworld was the first, not the last of the Sumerian stories about Gilgamesh. She also suggests that a Sumerian Gilgamesh Cycle, currently only attested in old Babylonian manuscripts (ca. 18th century BCE), was in fact developed during the Ur III period (ca. 2100-2000 BCE). Providing a new way to look at the Sumerian Gilgamesh stories, this book is

relevant not only to scholars of the ancient Near East, but also to anyone interested in epic and epic cycle.
