Gordon Brown; A Note on Citations; Preface: A Scotsman Looks at the World; 1 The Life of an Absent-minded Professor; 2 A Weak State and a Weak Church; 3 A Non-religious Grounding of Morals: Smith and the Scottish Enlightenment; 4 Merriment and Diversion: Smith on Public Finance and Public Choice; 5 The Invisible Hand and the Helping Hand; 6 The French and American Smiths; 7 Adam Smith Today; Appendix; Notes on Further Reading; References; Index; |
| Sommario/riassunto      | Aims to show that Adam Smith (1723-90), the author of "The Wealth of Nations", was not the promoter of ruthless laissez-faire capitalism that is frequently depicted. Smith's "right-wing" reputation was sealed after his death when it was not safe to claim that an author may have influenced the French revolutionaries.                                                                                                                                                                          |
