Sommario/riassunto	The first account of Jarawara, a Southern Amazonia language of great complexity and unusual interest, by one of the world's leading linguists. - ;This is the first account of Jarawara, a Southern Amazonia language of great complexity and unusual interest, and now spoken by less than two hundred people. It has only two open lexical classes, noun and verb, and a closed adjective class with fourteen members which can only modify a noun. Verbs have a complex structure with three prefix and some twenty-five suffix slots. There is an eleven-term tense-modal system with an evidentiality contrast (eye
