

1.	Record Nr.	UNISA990002741740203316
	Autore	EMOND, Paul
	Titolo	La danse du fumiste : roman / Paul Emond
	Pubbl/distr/stampa	Bruxelles, : Jacques Antoine, copyr. 1977
	Descrizione fisica	103 p. ; 21 cm
	Collana	Écrits du Nord ; 1
	Disciplina	843.914
	Collocazione	XV.4. Coll. 5/6 XV.4. Coll. 5/6a
	Lingua di pubblicazione	Francese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Dedica manoscritta a Jean Tordeur
2.	Record Nr.	UNISALENTO991000809119707536
	Autore	Epifani, Maurizio
	Titolo	Analisi semiclassica della diffusione elastica tra nuclei pesanti. Tesi di laurea / laureando Maurizio Epifani ; relatore Raimondo Anni
	Pubbl/distr/stampa	Lecce : Università degli Studi. Facoltà di Scienze. Corso di laurea in Fisica, a.a. 1976-77
	Descrizione fisica	155 p. ; 30 cm
	Altri autori (Persone)	Anni, Raimondo
	Lingua di pubblicazione	Italiano
	Formato	Materiale a stampa
	Livello bibliografico	Monografia

3. Record Nr.	UNINA9910784418003321
Autore	Nash Linda Lorraine
Titolo	Inescapable ecologies [[electronic resource]] : a history of environment, disease, and knowledge / / Linda Nash
Pubbl/distr/stampa	Berkeley, : University of California Press, c2006
ISBN	9786611752521 0-520-93999-9 1-281-75252-5 1-60129-529-4
Descrizione fisica	1 online resource (348 p.)
Disciplina	614.4/2794
Soggetti	Medical geography - California - History Environmental health - California - History Public health - California - History
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Contents -- Illustrations -- Acknowledgments -- Introduction -- 1. Body And Environment In An Era Of Colonization -- 2. Placing Health And Disease -- 3. Producing A Sanitary Landscape -- 4. Modern Landscapes And Ecological Bodies -- 5. Contesting The Space Of Disease -- Conclusion -- Notes -- Bibliography -- Index
Sommario/riassunto	Among the most far-reaching effects of the modern environmental movement was the widespread acknowledgment that human beings were inescapably part of a larger ecosystem. With this book, Linda Nash gives us a wholly original and much longer history of "ecological" ideas of the body as that history unfolded in California's Central Valley. Taking us from nineteenth-century fears of miasmas and faith in wilderness cures to the recent era of chemical pollution and cancer clusters, Nash charts how Americans have connected their diseases to race and place as well as dirt and germs. In this account, the rise of germ theory and the pushing aside of an earlier environmental approach to illness constituted not a clear triumph of modern biomedicine but rather a brief period of modern amnesia. As Nash shows us, place-based accounts of illness re-emerged in the postwar

decades, galvanizing environmental protest against smog and toxic chemicals. Carefully researched and richly conceptual, *Inescapable Ecologies* brings critically important insights to the histories of environment, culture, and public health, while offering a provocative commentary on the human relationship to the larger world.
