	Descrizione fisica	1 online resource (viii, 290 p.)
	Classificazione	32.24.56
	Disciplina	005.8
	Soggetti	Cyber intelligence (Computer security) Cyberterrorism - Prevention National security - Technological innovations Internet - Security measures Internet computer crime innovation artificial intelligence computer piracy fight against crime

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Why do nations break into one another's most important computer networks? There is an obvious answer: to steal valuable information or to attack. But this isn't the full story. This text draws on often-overlooked documents leaked by Edward Snowden, real-world case studies of cyber operations, and policymaker perspectives to show that intruding into other countries' networks has enormous defensive value as well.
