

1. Record Nr.	UNISA990002961930203316
Autore	International conference on computational science and its applications :
Titolo	<4. ; : Krakow> Part 2. : 4th international conference / Marian Bubak... [et al.] (Eds.) : Krakow, Poland, June 6-9, 2004 : proceedings
Pubbl/distr/stampa	Berlin [etc.] : Springer, copyr. 2004
Descrizione fisica	LXVI, 745 p. : ill. ; 24 cm.
Collana	Lecture notes in computer science ; 3037
Disciplina	004
Soggetti	Informatica - Congressi - 2003
Collocazione	001 LNCS 3037
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNISA996339118803316
Autore	Davignon J
Titolo	Primary Hyperlipidemias [[electronic resource]]
Pubbl/distr/stampa	Oxford, : Atlas Medical Publishing Ltd, 2007
ISBN	1-281-73295-8 9786611732950 1-84692-551-7
Descrizione fisica	1 online resource (153 p.)
Collana	An Atlas of Investigation and Management
Altri autori (Persone)	DufourR
Disciplina	616.3997
Soggetti	Hyperlipidemia
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	An Atlas of Investigation and Diagnosis Primary Hyperlipidemias; Contents; Preface; Acknowledgements; Abbreviations; Chapter 1 Hereditary Hypercholesterolemias; Chapter 2 Hereditary Hypertriglyceridemias; Chapter 3 Inherited Mixed Dyslipoproteinemias; Chapter 4 Inherited Dyslipoproteinemias of Various Etiologies; Conclusion; Index
Sommario/riassunto	A comprehensively illustrated guide to diagnosis, this atlas will assist cardiologists, endocrinologists, primary care physicians and others healthcare professionals in their daily task of making an accurate assessment of the patient and then formulating the most effective management programme for each manifestation of this highly complex group of disorders: illustrates the appearance of commonplace presentations as well as rare and complex disorders; relates observed signs of disease with underlying metabolic disease processes; comprehensive accounts of each condition's clinical characteristi
