Sommario/riassunto

Homing phenomena must be considered an important aspect of animal behaviour on account of their frequent occurrence, their survival value, and the variety of the mechanisms involved. Many species regularly rely on their ability to home or reach other familiar sites, but how they manage to do this is often uncertain. In many cases the goal is attained in the absence of any sensory contact, by mechanisms of indirect orientation whose complexity and sophistication have for a long time challenged the skill and patience of many researchers. A series of problems of increasing difficulty have to be overcome; researchers have to discover the nature of orienting cues, the sensory windows involved, the role of inherited and acquired information, and, eventually, how the central mechanisms process information and control motory responses. Naturally, this book emphasizes targets achieved rather than areas unexplored and mysteries unsolved. Even so, the reader will quickly realize that our knowledge of phenomena and mechanisms has progressed to different degrees in different animal groups, ranging from the mere description of homing behaviour to a satisfactory insight into some underlying mechanisms. In the last few decades there have been promising developments in the study of animal homing, since new approaches have been tried out, and new species and groups have been investigated. Despite this, homing phenomena have not recently been the object of exhaustive reviews and there is a tendency for them to be neglected in general treatises on animal behaviour.

3. Record Nr.	UNINA9910305557603321
Autore	Turner Francis J (Francis Joseph)
Titolo	Diagnosis in social work : new imperatives // Francis J. Turner
Pubbl/distr/stampa	New York, : Haworth Social Work Practice Press, c2002

Descrizione fisica	1 online resource (288 p.)
Disciplina	362.2/0425
Soggetti	Psychiatric social work Social service Social case work
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 151-170) and index.
Nota di contenuto	Front Cover; Half Title; Title Page; Copyright; Dedication; ABOUT THE AUTHOR; CONTENTS; Chapter 1. Introduction; Chapter 2. The History of Diagnosis in Social Work; Chapter 3. What Led Us Astray?; Chapter 4. Diagnosis: What It Is Not; Chapter 5. Diagnosis: What It Is; Chapter 6. Our Ethical Responsibility to Diagnose; Chapter 7. Our Ethical Responsibility to Label; Chapter 8. A Spectrum of Critical Judgments; Chapter 9. Diagnosis As a Process and a Record; Chapter 10. Diagnosis and Gut Reaction; Chapter 11. Diagnosis and Assessment; Chapter 12. Diagnosis and Theory Chapter 13. Diagnosis and the ComputerChapter 14. The Risks of Diagnosing; Chapter 15. Diagnosis and Research: A Contemporary Challenge; Chapter 16. Enhancing Diagnostic Skills; Chapter 17. Final Comments; Appendix: Some Examples of Social Work Diagnoses; Bibliography; Index
Sommario/riassunto	How can you make necessary professional judgments without being judgmental?Assessment and diagnostic skills are essential professional tools for the social worker, but all too often they are neglected or downplayed. Diagnosis in Social Work argues for the reinstatement of social diagnosis to its former place as an essential concept in social

work. This courageous book demonstrates the detrimental impact of the loss of diagnostic skills on the quality of social work intervention. Combining meticulous history with insightful analysis, *Diagnosis in Social Work* shows how the con
