Sommario/riassunto	Virtual teams are an integral part of today's global business environment. Traditional face-to-face communication is frequently replaced with technology- mediated communication methods including phone, e-mail, fax, synchronous chat programs, and videoconferencing. While virtual teams offer various advantages to organizations and individuals in flexibility and the ability to overcome geographic distance, they face unique challenges. Virtual teams often are made up of members of various cultures and ages with diverse communication styles. Men and women also tend to behave differently in virtual environments. Challenges occur in the forming, storming, norming, performing, and adjourning phases of team development, and virtual teams must be able to cope effectively with those obstacles if they are to be successful and reach their potential. Team participants should be selected carefully for various personal characteristics that help ensure success and be trained in how to be effective virtual team members. Various team strategies can be implemented to improve effectiveness and satisfaction of virtual team members.

Sommario/riassunto	<p>Der Einsatz moderner Technik in der Polizeiarbeit, in der Strafrechtspflege und im Justizvollzug gewinnt im digitalen Zeitalter an Bedeutung. Auch in der Schweiz prägen algorithmische Anwendungen zunehmend die Arbeit der Polizei- und Strafbehörden. Insbesondere im Rahmen des Predictive Policing, des Bedrohungsmanagements, der Kriminalanalyse und des Risikoorientierten Sanktionenvollzugs sind technische Hilfsmittel kaum mehr wegzudenken. Dieser Einsatz immer intelligenter werdender Technik wirft verschiedene rechtliche, kriminalistische, kriminologische, verwaltungswissenschaftliche und nicht zuletzt gesellschaftspolitische Fragen auf. Der vorliegende Sammelband nimmt sich diesen Fragen erstmals umfassend an und beschäftigt sich in verschiedenen Beiträgen mit den Potenzialen und Risiken der Digitalisierung für die Polizeiarbeit und Strafrechtspflege. Das Werk erlaubt so eine interdisziplinäre sowie kritische Annäherung an das Phänomen einer «Smart Criminal Justice» und damit an die Strafrechtspflege des digitalen Zeitalters.</p>
