Religious organizations and social capital; 9. Religious parties and electoral behavior; Part IV: Conclusions: 10. Secularization and its consequences; 11. Re-examining the theory of existential security; 12. Re-examining evidence for the security thesis.
Sommario/riassunto	This book develops a theory of existential security. It demonstrates that

the publics of virtually all advanced industrial societies have been moving toward more secular orientations during the past half century, but also that the world as a whole now has more people with traditional religious views than ever before. This second edition expands the theory and provides new and updated evidence from a broad perspective and in a wide range of countries. This confirms that religiosity persists most strongly among vulnerable populations, especially in poorer nations and in failed states. Conversely, a systematic erosion of religious practices, values and beliefs has occurred among the more prosperous strata in rich nations.

Sommario/riassunto	Aidan Nichols' timely book is the first full-scale investigation of Joseph Ratzinger's theology, from the 1950's to the present day. It presents a chronological account of the development of Ratzinger's writing which reflects a wide range of historical and theoretical interests. A comprehensive introduction to a figure who is in his own right, quite apart from his significance in the politics of the Church, a major German Catholic theologian of the twentieth century. This new edition provides amplifies existing chapters by reference to books by Ratzinger between 1986/1987 and his election as
