Coda: Theory and Practice in Action Research; Critical Language Theory in Practice; An Organization's Internal Public Sphere: Its Nature and Its Supplementation; References; the series DIALOGUES ON WORK AND INNOVATION
Sommario/riassunto	Organizational theorists talk a lot about organizational development. Although they can express themselves eloquently, too often the practitioner is not convinced by their talk. The authors of The End of Organization Theory? are in favor of the 'doers' doing most of the talking themselves. Thus, in this book, Øyvind Palshaugen tells the story of an action research project in which a reorganization of the discourse between management and workers serves as the basis for an organizational development process. Bjorn Gustavsen, Dag Østerberg and John Shotter add critical comments.
