	Note generali	Includes index.

Nota di contenuto

Frontmatter -- Contents -- Foreword -- Editor's Preface -- 1. The Place of Psychoanalysis in the Human Sciences -- 2. Psychoanalysis and Psychology -- Notes -- Index

Sommario/riassunto

What can psychoanalysis, a psychological approach developed more than a century ago, offer us in an age of rapidly evolving, hard-to-categorize ideas of sexuality and the self? Should we abandon Freud's theories completely or adapt them to new findings and the new relationships taking shape in modern liberal societies? In a remarkably prescient series of lectures delivered in the early 1960s, the French philosopher Louis Althusser anticipated the challenges that psychoanalytic theory would face as politics moved away from structuralist frameworks and toward the elastic possibilities of anthropological and sociological thought. *Psychoanalysis and the Human Sciences* translates Althusser's remarkable seminars into English for the first time, making available to a wider audience the origins and potential future of radical political theory. Althusser takes the important step in these lectures of distinguishing psychoanalysis from psychology and especially psychiatry, which long resisted Freud's analytical concepts of the unconscious and overdetermination. By freeing psychoanalysis from this bind, Althusser can then apply these analytical concepts to the social and the political, integrated with Marxist theory. The result is an enlivened methodology for comprehending social organization and change that had a profound influence on the Frankfurt School and scholars who continue to work at the forefront of radical thought today: Judith Butler, Étienne Balibar, and Alain Badiou.

3. Record Nr.	UNINA9911007096503321
Titolo	Agrochemicals detection, treatment and remediation // edited by Majeti Narasimha Vara Prasad
Pubbl/distr/stampa	Amsterdam : , : Butterworth-Heinemann, , 2020
ISBN	9780081030172 0081030177
Descrizione fisica	1 online resource (1 volume) : illustrations
Soggetti	Agricultural chemicals Agricultural chemicals - Safety measures
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Agrochemicals Detection, Treatment and Remediation focuses on the latest research surrounding the detection and remediation of a new generation of agrochemical contaminants. The book defines the occurrence, sources, types and effects of agrochemicals, including herbicides, insecticides, fungicides and soil fumigants in the environment. The book covers both advanced physical and chemical methods for the abatement of these emerging contaminants in environmental media. Environmental Engineers and Researchers will find this to be a valuable reference on advanced processes for resource recovery, including nanotechnology for the recovery of phosphate from fertilizer industry wastewater.
