Sommario/riassunto	The Social Europe guide is a bi-annual publication aimed at providing to an interested but not necessarily specialized audience a concise overview of specific areas of EU policy in the field of employment, social affairs and inclusion. It illustrates the key issues and challenges, explains policy actions and instruments at EU level and provides examples of best practices from EU Member States. It also presents views on the subject from the Council Presidency and the European Parliament. The fourth volume in the series describes the vivid world of social economy organisations (such as cooperatives, associations, mutuels and foundations) as well as the more recent phenomenon of social entrepreneurship, i.e. business created to achieve social rather than financial goals. In addition, it illustrates trends towards greater social responsibility among citizens/consumers, for-profit companies and financial institutions. Finally it reviews ways in which European and national policies support the social economy and social enterprise. [Ed.]
