Sommario/riassunto	In a quarter of a century, the space of one generation, Erasmus, the best known of all European programmes, has transformed the experience of studying in Europe. It has shown what the European Union can achieve with a clear vision, enthusiasm and a willingness to cooperate. Erasmus has changed the lives of almost three million young people and opened the minds of the first genuinely European generation. This brochure illustrates how the programme has contributed to the original European vision of bringing together nations by putting people first in the building of a united Europe. Time spent abroad provides opportunities for gaining knowledge and skills and, for the young people taking part, a chance to become more confident and self-reliant. This experience gives them the edge in an increasingly competitive labour market and continues to have a positive impact throughout their careers. This can best be expressed in the words of the Erasmus Ambassadors, whose experiences are set out in these pages. [Ed.]
