1. **Record Nr.** UNISA990005859490203316

   Titolo Come alla corte di Federico II : ovvero parlando e riparlando di scienza : [atti de] gli incontri del 2003-2004

   Pubbl/distr/stampa Napoli : Università degli studi di Napoli "Federico II", 2005

   ISBN 88-7893-002-4

   Descrizione fisica 190 p. : ill. ; 23 cm

   Collana I quaderni di Coinor

   Disciplina 500

   Soggetti Scienze

   Collocazione CX 211

   Lingua di pubblicazione Italiano

   Formato Materiale a stampa

   Livello bibliografico Monografia

2. **Record Nr.** UNINA9910999687003321

   Titolo Advanced Information Networking and Applications : Proceedings of the 39th International Conference on Advanced Information Networking and Applications (AINA-2025), Volume 6 / / edited by Leonard Barolli

   Pubbl/distr/stampa Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2025

   ISBN 9783031877780
   3031877780

   Edizione [1st ed. 2025.]

   Descrizione fisica 1 online resource (XXXIII, 451 p. 142 illus., 119 illus. in color.)

   Collana Lecture Notes on Data Engineering and Communications Technologies, , 2367-4520 ; ; 250

   Disciplina 620.00285

   Soggetti Engineering - Data processing
   Computational intelligence
   Artificial intelligence
   Data Engineering
   Computational Intelligence
   Artificial Intelligence

   Lingua di pubblicazione Inglese

Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Towards a Lightful Deep Learning-Based IDS for Automotive Networks (With a Focus On CAN) -- Annotated Dataset Creation for Fake News Detection on Online Social Networks -- An Optimized Bounding Box Technique for Enhanced Underwater Fish Detection -- Explainable Reinforcement Learning for Assisting Air Traffic Controllers -- Towards a Business Process Driven Deployment and Decomposition of a Distribuited Jurisditional Information Management System on Cloud Continuum -- Federated Learning Algorithm for Identification of Apnea Sleeping Disorder -- Federated Learning Framework for Privacy-Preserving AI in Healthcare -- Automation and Visualization of Knowledge in Cloud Services: A Semantic Ontology Enhanced by Generative AI Models -- Strategies for Flow-Based Deployment and Orchestration in Cloud-Edge Interactive Computing.
Sommario/riassunto	Networks of today are going through a rapid evolution and there are many emerging areas of information networking and their applications. Heterogeneous networking supported by recent technological advances in low power wireless communications along with silicon integration of various functionalities such as sensing, communications, intelligence and actuations are emerging as a critically important disruptive computer class based on a new platform, networking structure and interface that enable novel, low-cost and high-volume applications. Several of such applications have been difficult to realize because of many interconnection problems. To fulfill their large range of applications different kinds of networks need to collaborate and wired and next generation wireless systems should be integrated in order to develop high performance computing solutions to problems arising from the complexities of these networks. This volume covers the theory, design and applications of computer networks, distributed computing and information systems. The aim of the volume "Advanced Information Networking and Applications" is to provide latest research findings, innovative research results, methods and development techniques from both theoretical and practical perspectives related to the emerging areas of information networking and applications.
