Soggetti	Web-based instruction COVID-19 Pandemic, 2020 College students College teachers
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

Sommario/riassunto

"The sudden shift to remote education in response to the COVID-19 pandemic created both a unique challenge and a unique opportunity. Students and instructors alike were required to quickly adapt to the digital classroom, adjusting methods, material, and pedagogical approaches on the fly. Bringing together twenty-five interviews from the frontline of emergency remote education, *Voices from the Digital Classroom* portrays the struggles, innovations, and resilience of students, instructors, and educational professionals in the face of COVID-19. These interviews offer a unique, of-the-moment perspective on an exceptional time. Complemented by additional voices that expand on stories told to reflect on challenges, successes, and lessons learned, *Voices from the Digital Classroom* is both a time-capsule and a vision for the future. It provides new insights into pandemic teaching and learning, a remarkable lens into the daily realities of the digital classroom, and an inspiration for the future of remote education in a post-pandemic world."-- Provided by publisher.
