Sommario/riassunto

There are secrets in even the smallest of towns... Nerina Simpson fled the streets of New York City, hoping to find solace outside the small town of Talkeetna, Alaska. Physically scarred from a fire that claimed both her parents, Nerina keeps to herself while she tries to put the darkness of her life behind her. When a winter storm forces her into town, she collides with Victor Canidae. An arrogant man who makes it no secret that he and everyone else in the town want her to leave. Headstrong, and refusing to back down, Nerina finds herself in trouble when her two four-legged companions get lost in a storm, landing her in the path of an angry bear hell bent on taking her life. Until a mysterious white wolf comes to her rescue. When she wakes up in a warm cave, the last person she expected to see is Victor. Stuck in a cave until the storm passes the two decide there is only one way to pass the time, and quickly when you're getting physical.
