Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910466456303321
Titolo	The melanoma handbook / / editors, Stephan Ariyan, Harriet Kluger
Pubbl/distr/stampa	New York : , : Demos Medical, , 2017 2017
ISBN	1-78785-092-7
Descrizione fisica	1 online resource (283 pages) : illustrations
Disciplina	616.99477
Soggetti	Melanoma Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based on print version record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Sommario/riassunto	The Melanoma Handbook is a concise and comprehensive resource for anyone who treats patients with local, advanced, or metastatic melanoma in all its various forms. Detailed chapters cover the pathology, treatment, and management of all presentations of melanoma, including essential clinical knowledge on staging and workup considerations. The content emphasizes both overall treatment guidelines and more nuanced applications for patient groups who have different presentations, metastases, or other complications to treatment. Each chapter summarizes important concepts and features illustrative figures that arm practitioners with visual guidance to diagnosis, treatment, and management for all subtypes and stages of melanoma. Tables throughout the handbook consolidate helpful classification and staging information, survival data, FDA-approved treatment regimens, and toxicity risk. Unlike many oncology or dermatology textbooks, this straightforward reference provides a targeted overview of conventional and novel treatment strategies for all stages of malignancy and applications of practical, current management options. The Melanoma Handbook is essential not only for trainees managing this fast-moving disease for the first time but also oncologists, dermatologists, and surgeons who want a searchable,

quick-review reference when faced with a challenging melanoma case in their practice.
