

1. Record Nr.	UNISA996197430203316
Autore	Tobias Phillip V
Titolo	Humanity from African naissance to coming millennia : colloquia in human biology and palaeoanthropology // editors: Phillip V. Tobias [and others]
Pubbl/distr/stampa	Firenze University Press, 2001 Firenze : , : Firenze University Press Johannesburg (ZA) : Witwatersrand university press, , 2001
ISBN	8884530032 (ebook)
Descrizione fisica	1 online resource (384 pages) : illustrations; digital, PDF file(s)
Collana	Atti
Soggetti	Biological Evolution Hominidae - anatomy Hominidae - physiology Paleontology - methods Congress.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Humanity From African Naissance to Coming Millennia arises out of the world's first Dual Congress that was held at Sun City (South Africa) in 1998 that refers to a conjoint, integrated meeting of two international scientific associations, the International Association for the Study of Human Palaeontology - IV Congress - and the International Association of Human Biologists. The volume includes 39 refereed papers covering a wide range of topics, from Human Biology, Human Evolution (Emerging Homo, Evolving Homo, Early Modern Humans), Dating, Taxonomy and Systematics, Diet, Brain Evolution, offering the most recent analyses and interpretations in different areas of evolutionary anthropology.
