

1. Record Nr.	UNISA996199042903316
Autore	Warmington E. H (Eric Herbert), <1898-1987>
Titolo	Natural Questions. Volume I
Pubbl/distr/stampa	[Place of publication not identified], : Harvard University Press, 1971
ISBN	0-674-99495-7
Descrizione fisica	540 p ; 17.500x11.400 cm
Collana	Loeb Classical Library ; ; 450 Loeb Classical Library ; 450
Disciplina	878/.01/09
Soggetti	Science, Ancient
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Most of Seneca's "Naturales Quaestiones" is given over to celestial phenomena. Book 1 discusses "lights" or fires in the atmosphere; 2, lightning and thunder; Book 3 concerns bodies of water. Seneca's method is to survey the theories of major authorities on the subject at hand and his work is therefore a rewarding guide to Greek and Roman thinking about the heavens.
