Sommario/riassunto	The Film Literature Index (FLI) annually indexes 150 film and television periodicals from 30 countries cover-to-cover and 200 other periodicals selectively for articles on film and television. The periodicals range from the scholarly to the popular. More than 2,000 subject headings provide detailed analysis of the articles. The FLI Online contains approximately 700,000 citations to articles, film reviews and book reviews published between 1976-2001. You can search the citations or browse by subject headings, browse by person names, browse by production titles, or browse by corporate names.
