

1. Record Nr.	UNISA996199631303316
Titolo	1999 IEEE MTT-S Symposium on Technologies for Wireless Applications : digest, 21-24 February 1999, Vancouver, B.C., Canada
Pubbl/distr/stampa	[Place of publication not identified], : Institute of Electrical and Electronics Engineers, 1999
Disciplina	621.382
Soggetti	Wireless communication systems Microwave communication systems Microwave circuits Telecommunications Electrical & Computer Engineering Engineering & Applied Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph

2. Record Nr.	UNINA9910782907303321
Autore	Piontelli Alessandra <1945, >
Titolo	Twins : from fetus to child / / Alessandra Piontelli
Pubbl/distr/stampa	London ; ; New York : , : Routledge, , 2002
ISBN	1-134-50494-2 9786610113323 1-283-60890-1 1-280-11332-4 9786613921352 1-134-50495-0 0-203-99433-7
Descrizione fisica	1 online resource (328 p.)
Disciplina	155.44/4
Soggetti	Twins - Psychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [212]-241) and index.
Nota di contenuto	TWINS From Fetus to Child; Copyright; Contents; List of figures; List of tables; Acknowledgements; Introduction; Studying twins in different environments; Chapter 1 Biology of twinning; Chapter 2 Twin pregnancy and the twin fetus; Chapter 3 Intrauterine behavior; Chapter 4 Antecedents and forerunners of post-natal life; Chapter 5 Still in hospital: birth and soon after birth; Chapter 6 Back home; Chapter 7 The initial stages of twinship; Chapter 8 'Twinning'; Chapter 9 Becoming 'twinning' - the couple effect; Chapter 10 Changes in the twins; Chapter 11 Different types of twins Chapter 12 Changes in the familyConclusion; Tables: Explanatory notes; Tables 1-17; Notes; Bibliography; Index
Sommario/riassunto	Though much has been written about twins, very little research has been done into their everyday lives, both postnatal and prenatal. In this fascinating new study Alessandra Piontelli follows the development and behaviour of thirty pairs of twins from their early life in the womb through to their third year of childhood. Drawing on detailed ultrasound observations and work with mothers and families in clinical and natural settings, the text traces the subtle ways in which various

types of twins live, behave and interact with their unequally shared and unique pre- and postnatal environments.
