                         2014

   ISBN   3-319-08786-X

   Edizione   [1st ed. 2014.]

   Descrizione fisica   1 online resource (XXVI, 510 p. 144 illus.)

   Collana   Information Systems and Applications, incl. Internet/Web, and HCI ; ;
                         8538

   Disciplina   004.019

   Soggetti   User interfaces (Computer systems)
                         Information storage and retrieval
                         Artificial intelligence
                         Application software
                         E-commerce
                         User Interfaces and Human Computer Interaction
                         Information Storage and Retrieval
                         Artificial Intelligence
                         Information Systems Applications (incl. Internet)
                         e-Commerce/e-business

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Note generali   Bibliographic Level Mode of Issuance: Monograph

   Nota di contenuto   Large scale personalization, adaptation and recommendation --
                         Personalization for individuals, groups and populations -- Modeling
                         individuals, groups and communities -- Web dynamics and
                         personalization -- Adaptive Web-based systems -- Context awareness
                         -- Social recommendations -- User experience -- User awareness and
                         control -- Affective aspects -- UMAP underpinning by psychology
                         models -- Privacy -- Perceived security and trust -- Behavior change
                         and persuasion.

   Sommario/riassunto   This book constitutes the thoroughly refereed proceedings of the 22nd
                         International Conference on User Modeling, Adaption and

Personalization, held in Aalborg, Denmark, in July 2014. The 23 long and 19 short papers of the research paper track were carefully reviewed and selected from 146 submissions. The papers cover the following topics: large scale personalization, adaptation and recommendation; Personalization for individuals, groups and populations; modeling individuals, groups and communities; Web dynamics and personalization; adaptive web-based systems; context awareness; social recommendations; user experience; user awareness and control; Affective aspects; UMAP underpinning by psychology models; privacy; perceived security and trust; behavior change and persuasion.
