

1. Record Nr.	UNISA996200359103316
Titolo	Combinatorics on Words [[electronic resource]] : 10th International Conference, WORDS 2015, Kiel, Germany, September 14-17, 2015, Proceedings // edited by Florin Manea, Dirk Nowotka
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2015
ISBN	3-319-23660-1
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (XVIII, 237 p. 47 illus.)
Collana	Theoretical Computer Science and General Issues, , 2512-2029 ; ; 9304
Disciplina	511.6
Soggetti	Machine theory Computer science Computer science—Mathematics Discrete mathematics Artificial intelligence Software engineering Formal Languages and Automata Theory Theory of Computation Discrete Mathematics in Computer Science Artificial Intelligence Software Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Intro -- Preface -- Organization -- Abstracts of Invited Talks -- Degrees of Transducibility -- Equality Testing of Compressed Strings -- On the Contribution of WORDS to the Field of Combinatorics on Words -- Codes and Automata in Minimal Sets -- Decidability of Abelian-Power-Freeness and Generalizations -- Thue-Morse Along Two Polynomial Subsequences -- Contents -- Degrees of Transducibility -- 1 Introduction -- 2 Preliminaries -- 2.1 Finite State Transducers and Mealy Machines -- 2.2 Degrees of Transducibility -- 3 Comparison -- 4 Atoms and Polynomials -- 5 A Plethora of Questions -- References -- Equality Testing of Compressed Strings -- 1 Introduction -- 2 Straight-Line Programs -- 3 Sequential Algorithms --

4 A Parallel Algorithm -- 5 Related Problems -- 6 Open Problems --
 References -- On the Contribution of WORDS to the Field of
 Combinatorics on Words -- References -- Codes and Automata in
 Minimal Sets -- 1 Introduction -- 2 Neutral and Tree Sets -- 2.1
 Neutral Sets -- 2.2 Tree Sets -- 3 Automata -- 4 Codes -- 4.1 A
 Cardinality Theorem for Prefix Codes -- 4.2 The Group of a Bifix Code
 -- References -- Thue--Morse Along Two Polynomial Subsequences --
 1 Introduction -- 2 Thue--Morse at Distinct Multiples -- 3 Thue--
 Morse at Two Polynomials -- References -- Canonical Representatives
 of Morphic Permutations -- 1 Introduction -- 2 Basic Definitions -- 3
 Ergodic Permutations -- 4 Ergodic Permutations Generated by Words --
 4.1 Morphisms on Words and Intervals -- References -- Linear-Time
 Computation of Prefix Table for Weighted Strings -- 1 Introduction --
 2 Properties and Auxiliary Data Structures -- 3 Algorithm -- 4 Final
 Remarks -- References -- New Formulas for Dyck Paths in a Rectangle
 -- 1 Introduction -- 2 Definitions and Notation -- 3 Ferrers Diagrams
 Comparison Method -- 3.1 Diagrams Decomposition Method -- 3.2
 Technical Results.
 4 Theorems -- 5 Examples -- 5.1 Example $D_{8,8n+6}$ -- 5.2 Example
 $D_{6,6n+2}$ -- 5.3 Example $D_{6,9}$. -- References -- Ambiguity of
 Morphisms in a Free Group -- 1 Introduction -- 2 Preliminaries -- 3
 Basic Ambiguity -- 4 Unambiguous Injective Morphisms -- 4.1 Main
 Theorem -- 4.2 Proof Outline -- 5 Patterns with Terminal Symbols --
 References -- The Degree of Squares is an Atom -- 1 Introduction -- 2
 Preliminaries -- 3 Finite-State Transducers and Degrees -- 4
 Characterising Transducts of Spiralling Sequences -- 5 Squares --
 References -- Words with the Maximum Number of Abelian Squares --
 1 Introduction -- 2 Notation and Background -- 3 Abelian-square Rich
 Words -- 3.1 The Thue-Morse Word -- 3.2 Sturmian Words -- 4
 Conclusions and Future Work -- References -- Arithmetics on Suffix
 Arrays of Fibonacci Words -- 1 Introduction -- 2 Related Work -- 3
 Preliminaries -- 4 The Suffix Array and Its Inverse -- 5 Burrows-
 Wheeler Transform -- 6 Outlook -- References -- Prefix-Suffix Square
 Completion -- 1 Introduction -- 2 Definitions -- 3 Generating Infinite
 Words -- 4 Finite Words: Algorithms -- 5 Future Work -- References --
 Square-Density Increasing Mappings -- 1 Introduction -- 2
 Preliminaries -- 3 Fractional-Power Density Increasing Mappings to
 Expand the Alphabet -- 3.1 Fractional-Power Density Preserving
 Quaternarizer -- 3.2 Fractional-Power Density Preserving Mappings to
 Double the Alphabet Size -- 4 Strictly Square-Density Increasing
 Mappings -- 4.1 Strictly Square-Density Increasing Alphabet Downsizer
 -- 5 Future Work -- References -- Mechanical Proofs of Properties of
 the Tribonacci Word -- 1 Introduction -- 2 Tribonacci Representation
 -- 3 Mechanical Proofs of Properties of the Infinite Tribonacci Word --
 3.1 Repetitions -- 4 Enumeration -- 5 Additional Results -- 5.1
 Palindromes -- 5.2 Quasiperiods -- 5.3 Unbordered Factors -- 5.4
 Lyndon Words.
 5.5 Critical Exponent -- 6 Abelian Properties -- 7 Things We Could Not
 Do Yet -- References -- On Arithmetic Progressions in the Generalized
 Thue-Morse Word -- 1 Introduction -- 2 Preliminaries -- 3 Main Result
 -- 3.1 Case of $d=3n-1$ -- 3.2 Case of $d=3n-1$ -- 4 Conclusion --
 References -- A Square Root Map on Sturmian Words -- 1 Introduction
 -- 2 Notation and Preliminary Results -- 2.1 Optimal Squareful Words
 -- 2.2 Continued Fractions -- 2.3 Sturmian Words -- 2.4 Powers in
 Sturmian Words -- 3 The Square Root Map -- 4 One Characterization
 of Words Satisfying the Square Root Condition -- 5 Characterization by
 a Word Equation -- 6 A More Detailed Combinatorial Description of the
 Square Root Map -- References -- Specular Sets -- 1 Introduction -- 2

Preliminaries -- 3 Specular Groups -- 4 Specular Sets -- 5 Subgroup Theorems -- References -- On the Tree of Ternary Square-Free Words -- 1 Introduction -- 2 Definitions and Notation -- 3 Letters Fixed by Short Squares -- 4 Long Squares -- 5 Discussion -- References -- Author Index.

Sommario/riassunto

This book constitutes the refereed proceedings of the 10th International Conference on Combinatorics on Words, WORDS 2015, held in Kiel, Germany, in September 2015 under the auspices of the EATCS. The 14 revised full papers presented were carefully reviewed and selected from 22 submissions. The main object in the contributions are words, finite or infinite sequences of symbols over a finite alphabet. The papers reflect both theoretical contributions related to combinatorial, algebraic, and algorithmic aspects of words, as well as to contributions presenting applications of the theory of words in other field of computer science, linguistics, biology, bioinformatics, or physics.
