Zander -- Cruciferous vegetables and cancer prevention / Cynthia A. Thomson and Tina L. Green -- Breast cancer prevention / Brent P. Mahoney and Paula Inserra.

Sommario/riassunto

Cancer is a leading cause of death among adults but research shows that the chances of developing cancer can be reduced by lifestyle changes. Increasing numbers of people use dietary vegetables, medicinal herbs, and plant extracts to prevent or treat cancer. Their availability as "over the counter" supplements has contributed to an explosion in the use of herbal extracts and related compounds for health enhancement. This vital resource brings together the worlds leading experts' research, their conclusions and recommendations on functional foods and nutraceuticals in the prevention and tr
