

1. Record Nr.	UNISA996201672903316
Titolo	Umweltgeschichte und umweltzukunft : zur gesellschaftlichen Relevanz einer jungen Disziplin // Patrick Masius, Ole Sparenberg und Jana Sprenger (Hg.)
Pubbl/distr/stampa	[Göttingen] : , : Universitätsverlag Göttingen, , 2009
Descrizione fisica	1 online resource (272 pages) : digital, PDF file(s)
Soggetti	Earth & Environmental Sciences Ecology
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	Global climate change, the extinction of species, animal pests and natural catastrophes dominate debates on the future of the earth. Often these phenomena are considered as something new, which they are not, and many of today's discussions have their roots in the past. Therefore, to cope with our problems, forward-looking thinking has to be combined with understanding for the political, economic, social, and ecological background of our present situation. In their various contributions the authors discuss the importance of the history of ecology. The book comprises the results of a workshop on "History of Ecology and the Future of Ecology" held at the DFG Graduate College in Göttingen in July, 2008.
